Dear Mr. Whishury,

I am very interest to see that some-
one has investigated the case of Ex-
President Kennedy's death. I would
like very much to have one of your
books, called Whitewash. I have
deposited \$5.00 within this letter. There is
still one question I didn't get to ask
when you was on the John Sterling
show - called Contact:

If you say that Lee Oswald couldn't
have loaded and aimed the gun in the
time alotted for the second shot, and
if the gun wasn't automatic, and if he
Oswald did have an assistant wouldn't
the gun shot from the assistant enter
the body of President Kennedy or the
Governor, at different angle or place
showing where the shot came from? Lee
Oswald was the only person in the
building ~~where~~ ^{when} the President life was
taken, wasn't he?
